

TDX Global Express Success Promotion

At TDX Global we're confident that once you see the ECD process in action and the high-quality of our e-Learning courses you'll be convinced. We're also cognizant that many organizations are reluctant to invest resources with new technology providers. That's why we are offering the "Express Success" promotional offer.

For a limited time, TDX Global is offering the Express Success promotion to demonstrate the process of developing compelling, engaging, and interactive e-Learning courses to qualified prospective clients.

Here's how the Express Success program works:

1. You pick the current instructor-led training course or subject area you would like converted to an e-Learning course. The training material can be a company process or policy, safety/OSHA compliance training, product tutorial, or any other training subject matter at your company.
2. You provide TDX Global a description of the course objectives, target audience, and existing training materials (PowerPoints, documents, notes, etc.).
3. TDX Global will assess the materials and provide an e-Learning course 'storyboard', outline, and prototype that includes a description of all interactive and multimedia components. TDX Global will also provide a document that outlines what the normal price would be for the ECD conversion.
4. TDX Global will then convert the course using the ECD process and provide you with the finished interactive and instructionally-sound e-Learning course.
5. Your team has 10 days to evaluate the finished course. If you're satisfied with the course, it can be purchased at the quoted price. Otherwise, simply delete the course from your files.

We believe that once you experience the TDX Global ECD process firsthand and see the high-quality of a TDX Global ECD e-Learning course you'll be convinced. Please contact a TDX Global account representative to take advantage of this promotional offer.
